|--|----|
| About the Authors | v |
| Executive summary | 1 |
| Resumé | 2 |
| 1. Introduction | 4 |
| 1.1 The aims of the report | 4 |
| 1.2 Scientific challenges in biomedicine, pediatric care, and law | 5 |
| 1.2.1 Identifying the vulnerabilities and diversity of children as a class | 5 |
| 1.2.2 Conceptualizing risk in relation to scientific advances, uncertainties, and rights | 6 |
| 1.2.3 Locating uncertainty and risk in biomedicine | 7 |
| 1.3 The parameters and methodology of the report | 8 |
| 1.4 The structure and disposition of the report | 10 |
| 2. Child development and its relation to medical science | 11 |
| 2.1 Introduction | 11 |
| 2.2 Scientific Background | 11 |
| 2.2.1 General developmental principles | 11 |
| 2.2.2 Developmental periods and their relationship to biomedical risk | 13 |
| 2.3 Analysis | 15 |
| 2.3.1 The utility of regulation and rights in responding to risk and uncertainty | 15 |
| 2.3.2 Scientific uncertainty and the right to the highest attainable standard of health | 17 |
| 2.3.3 Scientific uncertainty and the right to consent or to be heard | 18 |
| 2.4 Summary of the rights at stake | 20 |
| 3. Interventions at the earliest stage of human development that affect the future child | 21 |
| 3.1 Introduction | 21 |
| 3.2 Assisted reproductive technology (ART) | 21 |
| 3.3 Corrective procedure in utero | 26 |
| 3.4 Summary of the rights at stake | 30 |
| 4 Genetics: analysis, therapy and technology | 31 |
| 4.1 Introduction | 31 |
| 4.2 Health-related direct-to-consumer genetic testing | 32 |
| 4.3 Next generation prenatal testing | 34 |
| 4.4 Genomic sequencing of newborns | 35 |
| 4.5 Genome editing | 36 |
| 4.6 Summary of the rights at stake | 38 |

| | |
|--|----|
| 5. Clinical practices for children classified as minorities based on their gender, sexuality, and physical sex characteristics | 39 |
| 5.1 Introduction | 39 |
| 5.2 Children with differences in sex development and intersex conditions | 40 |
| 5.3 Clinical efforts to “change” sexual orientation and gender identity | 45 |
| 5.4 Access to care for lesbian, gay, bisexual and transgender youth | 46 |
| 5.5 Summary of the rights at stake | 50 |
| 6. Children diagnosed with serious physiological and psychological health needs | 51 |
| 6.1 Introduction | 51 |
| 6.2 Children diagnosed with significant physical health needs..... | 51 |
| 6.3 Children diagnosed with psychiatric disorders or severe mental health needs | 56 |
| 6.4 Summary of the rights at stake | 61 |
| 7. Transplantation..... | 62 |
| 7.1 Introduction | 62 |
| 7.2 Children as transplantation recipients | 62 |
| 7.3 Children as potential donors at death | 64 |
| 7.4 Children as living donors | 65 |
| 7.5 Summary of the rights at stake | 67 |
| 8. End of life care | 68 |
| 8.1 Introduction | 68 |
| 8.2 Withdrawal of active treatment | 69 |
| 8.3 Palliative care at the end of life | 70 |
| 8.4 Assisted dying practices | 72 |
| 8.5 Summary of the rights at stake | 73 |
| 9. Summary and Conclusions..... | 74 |
| 9.1 Overarching concerns for children’s rights in biomedicine | 74 |
| 9.2 Rights identified | 75 |
| 9.2.1 The highest attainable standard of health | 75 |
| 9.2.2 Physical and psychological integrity | 76 |
| 9.2.3 Consent and due consideration for the child’s views | 77 |
| 9.2.4 Identity and private life | 77 |
| 9.2.5 Protection from discrimination..... | 78 |
| 9.2.6 Liberty and protection from inhumane and degrading treatment..... | 79 |
| 9.2.7 The right to life..... | 79 |
| 9.3 The future of children’s rights in an evolving biomedical landscape | 80 |
